

2016-17
Institutional Values and Best Practices

Best Practices I

Title of the Practice:

Special Teaching Practices to the deserving trainees by the college.

Objectives of the Practice

It is general & sensible thought that among the scholars, some students are average on the premise of advantage. On the other hand, some students are meritorious. In this situation, a tutor needs to face difficulties throughout the time of training. In such situation, a teacher made an effort to trained the trainees for teaching practices, which has to be conducted in different schools allotted by DEO. So, the noble objectives of the practice are:-

- To provide special assistance to the students who are unable to follow the teachers as much as the other meritorious students without any discrimination of caste, creed or gender.
- To promote the equality among the trainees.
- To drill the values of teachers' coaching and teaching practices among the trainees.

The expected outcome is that ought to be able to complete their teaching practices with superb remarks. The beneficiaries ought to treat the needy with the principle of "lend a hand while not discrimination".

The Context

The noble objective heads its teething as well as challenging troubles in its designing and implementation.

- There was a tough task to pooling up of the required resources.
- After so many efforts, our college set up a programme on the campus for voluntary donation by the faculties and other visitors. Ultimately, our college decided the number of the students/trainees who are in the category of under meritorious students.
- A special task of intelligence test has been conducted to check the trainees.
- At last our committee has decided to impart special teaching practices to the deserving trainees by the college.

The Practice

It is very relevant to clarify here that there are many type of students available in our colleges. All have different family background. Some students are those, who are very poor and their economic position is very pitiable. In such condition, it was a tough task to impart the special training of teaching practices. There was another part of teaching practices, the problem which was the in front of trainees. After finishing the class, they have to spend more time for special teaching practices. So, it was the matter of consideration.

The coordinator and the members of the unit decided that we should provide transportation facilities to the trainees and refreshment items. It will provide them freshness and active.

As a result, mostly trainees of the college agreed to take part in special class of teaching practices.

Evidence of Success

Among so many trainees, one student named Shivani of the session 2017-19, became very serious and shows her interest for special teaching practices. Therefore, she became very active and sincere relates to her subject and lesson plan. Similarly, other students named Saloni, who has already inspired by Shivani and other students who have participated in special teaching practices and decided to be a part of this unit.

Problems Encountered and Resources Required

It is very important to coordinator of this cell to check all the activities created by the trainees and supervised by the experts. Our coordinator Mrs. Shivangi Kumari concentrated her mind and decided to provide better and advance teaching practices to the trainees with the help of faculty members.

Ensuring the all round support & participation of all the faculties of this college. It was also important to maintain the criteria of college & administration, but ultimately we get success and trainees of our college, became satisfied with special teaching practices imparted by the team of experts.

Best Practices II

Title of the Practice:

Plantation Programme

Objectives of the Practice

It has been observing by the people that nature has been changing itself very tremendously as we are responsible for this change because of building and constructive more and more cities and town. So, the nature has unbalanced and disturbed that's why the combination of oxygen has ruined. Therefore, now we have to maintain this balance by following the given points :-

- To ensure more plantation of different fruits and other useful plants & trees.
- Plantation programme can become more popular. So, it is the duty of ours to promote more and more students to come forward.
- To enhance the values of plants & environment among the students.

The Context

The very noble objective of "Plantation programme is to save & protect to the environment by plantation work" with under given points:-

- To rising up the level of the student thinking regarding plantation work.
- To ensure the sincerity of the students regarding the values of trees & plants.
- To inculcate the programme of plantation can change the heart & hobbies of students to produce more and more oxygen.

- For the maintenance the cycle of the nature for up-gradation of the environment.

The Practice

It is very important to plant more and more trees, herbs and climbers because these are the carriers of rain and cloud. Only the nature has capacity to turn up the balance of nature to produce more and more oxygen, but it is only possible when our surroundings are full of trees and plants. Such type of programme is only possible when our new generation become more & more sincere and active towards plantation programme. If our programme of plantation makes the points of success, it is sure and certain that our nature will be in balance and the life of the people can be happy & prosperous. So, we should plant more & more trees and protect them for the future of new generation.

Evidence of Success

Our efforts of plantation work provoke the heart of the students and inspired them to go quickly on the path of plantation for the balance of the nature & up-gradation of environment. It is the result of the programme that more than 70% student participated in the programme of the plantation started by college & administration.

As soon as possible to 250 plants has been planted by the student in college campus. Now we hoping that after this raining season, these planted trees will provide us feelings of true nature & beauty of the nature.

Problems Encountered and Resources Required

Some students were too naughty that they avoid the programme and deny such types of activities, but our learned & scholars faculties convinced them and ultimately they agreed for the plantation work and realized the value and importance of the nature and environment. Not enough, but they also planted more & more plants and take an oath for the protection of the plants for the balance of nature.
